SUBJECT INDEX

Entries with pages in Roman type appear in this volume; *entries with data in Italic type appear in Pediatrics in Review.* Items of pediatric and medical interest from other sources which appeared in this volume are included in the index and are followed by "note" in parentheses. "Ethics" includes items and topics of interest to ethicists as well as ethical issues per se.

Abetalipoproteinemia, normotriglyceridemic, infancy, 541
Abscess
  recurrent formation, pertussis antigen immunization, 899
  streptococcal, diphtheria-tetanus toxoid-pertussis vaccination, 299
Accidents
  childhood death, poverty and, 41
  epidemiology of trauma, incarcerated youth, 463
  fireworks, 877
  toy guns and, 265
Acrodermatitis enteropathy, *PIR6:209, 84–85*
Adenine arabinoside, Wiskott-Aldrich syndrome, progressive varicella in, 672
Adenoidectomy, acute pulmonary edema in, 112
Adolescents
  diabetes, cognitive deficits, 921
  fathers, black, low socioeconomic status, 648
  female, urinary tract infections, single-dose versus conventional therapy, 916
  incarcerated youth (commentary), 539
  male, physical maturity screening, sports, 1076
  meningomyocele in, *PIR6:245, 84–85*
  mothers, mother-infant interaction in, 23
  obesity, television and, 807
  pregnancy and childbearing (commentary), 973
  risk factors, atherosclerosis, aerobic capacity, and obesity, 813
  ritalin and (letter), 614
  sexuality, black teenage fathers, 648
  stressful life events, somatic complaints and, 19
Aerobic fitness, obesity and atherosclerotic risk factors, male adolescents, 813
Aggression, television and, 233
Airway
  continuous positive pressure, intubated premature infants, 85
  intubation, premature and term infants, 664
  upper
    obstruction, glossoptosis-apnea syndrome, infancy, 836
    obstruction, sleep state and position, infants, 832
Albumin, binding, bilirubin, phototherapy effects (supplement), 401
Alimentation solutions, heparinization of (letter), 1167
Allergy
  food and cow's milk, development of (supplement), 177
  protein absorption and, developing intestine (supplement), 167
Ambulatory care, breast-feeding, early termination, 508
American Academy of Pediatrics
  Committee statements
    Committee on Children with Disabilities: Provision of related services for children with chronic disabilities, 796
    Committee on Hospital Care: Relationship between hospital-based and private practice physicians, 365
    Committee on Infectious Diseases: Prevention of hepatitis B virus infection, 362
    Committee on Infectious Diseases, Recommendation for using pneumococcal vaccine in children, 1153
    Committee on Nutrition: Nutritional needs of low-birth-weight infants, 976
    Committee on Nutrition: Use of oral fluid therapy and posttreatment feeding following enteritis in children in a developed country, 358
    Committee on School Health: Health education and schools, 1160
  Council on Research: Proposed guidelines on genetic engineering, 1159
American Board of Pediatrics, candidates certified, 377, 804, 1172
American Lung Association, tuberculosis, short-course antimicrobial treatment evolution, 684
American Thoracic Society, tuberculosis, short-course antimicrobial treatment evolution, 684
Amiloride, renal hypophosphatemic rickets and, 754
Amino acids, protein metabolism and, term infants, 775
Aminophylline, doxapram and, idiopathic apnea of prematurity, 709
Amiodarone, digoxin interaction, children, 1032
Amoxicillin, otitis media with effusion, 819
Anemia, hemolytic, *PIR6:201, 84–85*
Antimicrobial agents, bilirubin-albumin displacement, neonates, 294
Antimicrobial treatment, short-course, tuberculosis, 684
Antioxidant enzymes, dexamethasone stimulation, fetal lung, 569
Antipyresis, parental fever phobia, 1110
Apnea
  infant, hypoxic and hypercapnic arousal responses, 848
  prematurity, doxapram versus aminophylline, 709
  sleep, phenothiazine-induced, 844
Apoprotein B-100, normotriglyceridemic abetalipoproteinemia, infancy, 541
Arms race, children and (commentary), 1149
Arousal
  disorders of, Tourette syndrome, 73
  hypoxic and hypercapneic responses, apnea of infancy, 848
Arrhythmia, conversion, overdrive pacing for, 730
Arthritis, septic, *Haemophilus influenzae* type b, children, 254
Ascites, intravenous vitamin E product and, premature infants, 598
Asphyxia
  birth, selective pediatric interventions, 51
  high loading dose of phenobarbital, safety in newborn, 1061
Aspiration, intubated premature infants, 85
Asthma
  cough receptors, hyperresponsiveness of, 855
  early childhood, social and familial factors in development, 859
  parental, development of early childhood asthma, 859
  pneumomediastinum and (letter), 990
Atherosclerosis, aerobic capacity, obesity and, risk factors in male adolescents, 813
Atresia, choanal, glossoptosis-apnea syndrome, infancy, 836
Atrial flutter
  infancy, 725

Atrial flutter—*continued*
overdrive pacing for conversion of, 730
Augmentin, versus cefaclor, otitis media with effusion, 819
Automobile restraints
car seats, premature infants, 336
physician knowledge and clinical behavior, 248

Back injury, break-dancing (letter), 616
Bacteremia, early detection, outpatient clinic, 827
Balloons, suffocation and (letter), 615
Battery ingestion, clinical course, 469
Behavior
aggressive, television violence and, 1120
automobile safety, physician knowledge and clinical behavior, 248
child, family life events and maternal depression effects, 30
compliance, adolescents' self-assessment, 693
imitative, television violence and, 1120
problems, sleep problems and, 477
Biliary atresia (letter), 802
Bilirubin
albumin binding of, phototherapy effects (supplement), 401
albumin displacement, antimicrobial agents in, 294
jaundice, phototherapy and, 443
photoisomerization, low- and high-dose phototherapy, 519
unbound, auditory nerve and brainstem responses in, 703
Bioethics committee, infant (letter), 368
Birth weight
low
epidemiology of hyperbilirubinemia, 770
nutritional needs (committee statement), 976
special-care bed needs, 993
very low, normal intelligence, preschool performance of, 531
Blood, transfusion: *see* Transfusion
Blood flow, cerebral, measurement techniques, infants and children, 887
Blood gas, analysis, economic impact, neonatal care, 1065
Blood pressure
arterial, pancuronium effects, distressed neonates, 284
assessment, age and body size effects, 1061
hypertension, captopril treatment, 1091
Bone dysplasia syndrome, autosomal recessive, resembling hypochondroplasia, 786
Botulism
infant
epidemiologic study, 928
clinical, laboratory, and environmental features, 935
Bovine surfactant therapy, hyaline membrane disease, baboon, 1132
Brainstem, auditory nerve responses and, hyperbilirubinemia, 703
Breast-feeding
development of early childhood asthma and, 859
early termination, 508
employed mothers, accommodation in the work place, 644
formula supplementation effects, 514
hyperbilirubinemia and
full-term infant (letter), 617
neonate, 770
infant botulism and, 928, 935
Breast pump, breast-feeding and employed mothers, 644
Breath-holding spells, cyanotic, ventilatory chemosensitivity in, 76
Breathing
control, impaired, idiopathic hypothalamic dysfunction, 896
cyanotic spells, ventilatory chemosensitivity in, 76
Bronchiolitis, recurrent wheezing and (letter), 614
Bronchitis, involuntary smoking, infants, 594
Bronchopulmonary dysplasia
dexamethasone trial, respirator-dependent infants, 106
pulmonary vascular response, oxygen, infants, 80

Calcium, urinary excretion, renal hypophosphatemic rickets and, 754
Calorimetry, partitional, radiant warmers, newborn, 89
Camurati-Engelmann disease, corticosteroid therapy, 321
Cancer
adverse effects of therapy, *PIR6:259, 84–85*
childhood, long-term survivors, neuropsychological sequelae, 745
therapy, nausea and vomiting, anticipatory, 547
Captopril, severe childhood hypertension, 1091
Carbohydrates, absorption, fetus and neonate (supplement), 160
Cardiac decompensation, verapamil therapy and, supraventricular tachycardia, 737
Cardioversion, atrial flutter, infancy, 725
Caretaker-child interaction, lead exposure and, 1114
Catecholamines, neuroblastoma and, 324
Cefaclor
efficacy, otitis media, 8
versus Augmentin, otitis media with effusion, 819
Central venous catheterization, Munchausen syndrome and, 523
Cerebrospinal fluid
neurotransmitter, neurologically normal infants and children, 580
normal values, 484
Cerebrovascular accidents, Schoenlein-Henoch purpura, 687
Chemotherapy, nausea and vomiting, anticipatory, pediatric cancer patients, 547
Chest pain, children, 1068
Child abuse
delinquent behavior and, foster care, 562
head injuries, 340
television violence and, parenting practices, 1120
Child development
lead exposure and, 1114
neurodevelopmental and educational findings in, 697
Childhood illness
cancer, neuropsychological sequelae of long-term survivors, 745
health care utilization and morbidity, 241
Childhood injury
fireworks, 877
relative risk (letter), 1169
Child safety seats, premature infants, 336
Chloride, deficiency, dietary, infancy, 1
Chronically ill child, ethical response, *PIR6:291, 84–85*
Cigarette smoking
early childhood asthma, factors in development, 859
neonatal hyperbilirubinemia and, 770
Circumcision, urinary tract infections, 901
Clavulanic acid, otitis media with effusion, 819
Cleft palate, bifid uvula and, morphologic significance, 553
Clostridium botulinum, infant, epidemiologic study, 928
Cognitive deficits, adolescents, early development of diabetes, 921
Colloid osmotic pressure, umbilical cord plasma, healthy and sick newborn infants, 764
Commentaries
Adolescent pregnancy and childbearing: New data, new challenges, 973
Beginning to see the light, 792
Child care workers and children with congenital cytomegalovirus infection, 969
Fasgrolia, 356
Incarcerated youths: Urgent needs, 538
Ipecac use in the home, 1148
Poverty, hunger, malnutrition, prematurity, and infant mortality in the United States, 117
Preventing sexual abuse in children in day care: Whose problem is it anyway?, 1150
The arms race and children in fiscal year 1985, 1149
The measure of child, 791
The Rand Health Insurance experiment for children, 969
Too long for too little, 1151
When pediatricians become parents, 538
Computed tomography, for study of hypotonia, *PIR6:282, 84–85*
Contraception
compliance behavior, adolescents' self-assessment, 693
teenage fathers and, 648
Corpus callosum, ureteroceles and, concurrent agenesis of, siblings, 904
Corticosteroid therapy, progressive diaphyseal dysplasia, 321
Cough, hyperresponsiveness of receptors, bronchial asthma, 855
Counseling, genetic, *PIR6:269, 84–85*
Cross-infection, measles, airborne transmission in pediatric office, 676
Current issues in feeding the normal infant (supplement), 135–215
Cyclacillin, efficacy, otitis media, 8
Cytochrome aa_3, noninvasive monitor-

ing, cerebral oxygenation, preterm infants, 217
Cytomegalovirus infection
congenital, child care workers and (commentary), 971
hemophagocytic syndrome, 280

Danbolt-Closs syndrome, *PIR6:209, 84–85*
Day care, sexual abuse and (commentary), 1150
Delinquency, incarcerated youth, epidemiology of trauma, 463
Depression, maternal, family life events and, child behavior, 30
Deprived environments, weaning practices (supplement), 194
Dermacentor variabilis, methods for removal, 997
Development, chloride deficiency, dietary, infancy, 1
Developmental disabilities, neurodevelopmental and educational findings, children, 697
Dexamethasone
bronchopulmonary dysplasia, respirator-dependent infants, 106
oral, otitis media, 329
stimulation of antioxidant enzymes, lung, 569
Diabetes
adolescent, cognitive deficits in, 921
maternal, fetal hemoglobin in cord blood, 1143
Diabetes mellitus, insulin-dependent, diet-related knowledge, 872
Diaphyseal dysplasia, progressive, corticosteroid therapy, 321
Diet, diabetes mellitus, insulin-dependent, 872
Digestion
lipids, human milk (supplement), 146, 151
weaning period and (supplement), 207
Digoxin
interaction with common drugs, children, 1032
treatment failure, supraventricular tachycardia, 288
Diphtheria-tetanus toxoid-pertussis vaccination, streptococcal abscesses and, 299
Disabilities, chronic, related services for children (committee statement), 796
Doctor-patient relationship, race and social class effects, 639
Doppler ultrasound, superior sagittal sinus blood velocities, posture alterations and pressure on the head, 1038
Doxapram, aminophylline, idiopathic apnea of prematurity, 709
Drowning, hot tub, 789
Drugs, reactions and interactions, *PIR6:297, 84–85*
DTP: *see* Diphtheria-tetanus toxoid-pertussis vaccination
Duchenne muscular dystrophy, *PIR6:195, 84–85*
nifedipine in (letter), 1168
Dying child, ethical issues, *PIR6:291, 84–85*

Ear, middle, effusion, oral dexamethasone treatment, 329
Ectodermal dysplasia, intellectual functioning and (letter), 126
Edema
pulmonary
acute, tonsillectomy and adenoidectomy, 112
high-altitude, absent right pulmonary artery, 314
Education, handicapped child, role of pediatrician, *PIR6:275, 84–85*
Ego, development, mother-infant interaction and, adolescent mothers, 23
Emetics, ipecac syrup, 1101, 1105
Encephalopathy, Schoenlein-Henoch purpura, 687
Endocarditis
bacterial, prevention of, 603
group C streptococcal, 114
Endotracheal intubation, aspiration in, premature infants, 85
Endotracheal tube, premature and term infants, 664
Engelmann disease, corticosteroid therapy, 321
Enterocolitis
necrotizing
hyperosmolar oral medication and (letter), 371
vitamin E serum levels, low-birthweight infant, 619
Epidemiology, infant botulism, 928
Epstein-Barr virus, infectious mononucleosis, children, 1003, 1011
Errata, 992, 1171
Erythroblastosis fetalis, transfusion in (commentary), 792
Esophageal pacing, digoxin, supraventricular tachycardia, 288
Esophagus, catheter, atrial flutter and, infancy, 725
Ethical problems, care of the handicapped, *PIR6:291, 84–85*
Ethics, wrongful life and wrongful birth, new concepts, 65
Exchange transfusion: *see* Transfusion
Exercise, dynamic, prediction of blood pressure trends and, 1071

Failure to thrive, nonorganic, long-term effects, 36
Fasgrolia (commentary), 356
Feeding, normal infant (supplement), 135
Fetus
carbohydrate absorption (supplement), 160
circulation, experimental polycythemia, 1054
Fever, parental phobia, 1110
Fire-related death, smoke detectors and, giveaway program, 14
Fireworks, injuries from, 877
Floppy infant, *PIR6:237, 84–85*
Fluid volume, extracellular, renal hypophosphatemic rickets, 754
Fluoride, renal clearance, children and adolescents, 575
Food, allergy, development (supplement), 177
